
Jan R. Magnus

Published articles

1990–1999

last updated: April 2, 2017

1990

26. Magnus, J.R. (1990). On the fundamental bordered matrix of linear estimation, in: *Advanced Lectures in Quantitative Economics* (Ed. F. van der Ploeg), Academic Press: London, 583–604. [\[PDF\]](#)
27. Magnus, J.R. and A.D. Woodland (1990). Separability and aggregation, *Economica*, 57, 239–247. [\[PDF\]](#)
28. Magnus, J.R. (1990). On certain moments relating to ratios of quadratic forms in normal variables: further results, *Sankhya (Series B)*, Part 1, 52, 1–13. [\[PDF\]](#)

1991

29. Magnus, J.R. and B. Pesaran (1991). The bias of forecasts from a first-order autoregression, *Econometric Theory*, 7, 222–235. [\[PDF\]](#)

1993

30. Magnus, J.R. and B. Pesaran (1993). Evaluation of moments of quadratic forms and ratios of quadratic forms in normal variables: background, motivation and examples, *Computational Statistics*, 8, 21–37. [\[PDF\]](#)
31. Magnus, J.R. and B. Pesaran (1993). The evaluation of cumulants and moments of quadratic forms in normal variables (CUM): technical description, *Computational Statistics*, 8, 39–45. [\[PDF\]](#)
32. Magnus, J.R. and B. Pesaran (1993). The evaluation of moments of ratios of quadratic forms in normal variables and related statistics (QRMOM): technical description, *Computational Statistics*, 8, 47–55. [\[PDF\]](#)

1994

33. Fontein, P.F., G.J. Thijssen, J.R. Magnus and J. Dijk (1994). On levies to reduce the nitrogen surplus: the case of Dutch pig farms, *Environmental and Resource Economics*, 4, 455–478. [\[PDF\]](#)

1995

34. Keuzenkamp, H.A. and J.R. Magnus (1995). The significance of testing in econometrics, *Journal of Econometrics*, 67, 1–3. [\[PDF\]](#)
35. Keuzenkamp, H.A. and J.R. Magnus (1995). On tests and significance in econometrics, *Journal of Econometrics*, 67, 5–24. [\[PDF\]](#)
36. Magnus, J.R. and M.S. Morgan (1995). An experiment in applied econometrics, *Journal of Applied Econometrics*, 10, 213–216. [\[PDF\]](#)

1996

37. Magnus, J.R. (1996). *Het succes van de econometrie*, inaugural lecture, Tilburg University Press. [\[PDF\]](#)

1997

38. Magnus, J.R. and F.J.G.M. Klaassen (1997). Wat tenniscommentatoren niet weten: een analyse van vier jaar Wimbledon, *Kwantitatieve Methoden*, 18, No. 54, 55–62. Reply in *Kwantitatieve Methoden*, 18, No. 54, 67. [\[PDF\]](#)
39. Magnus, J.R. and M.S. Morgan (1997). Design of the experiment, *Journal of Applied Econometrics*, 12, 459–465. [\[PDF\]](#)
40. Magnus, J.R. and M.S. Morgan (1997). Organization of the experiment, *Journal of Applied Econometrics*, 12, 467–476. [\[PDF\]](#)
41. Magnus, J.R. and M.S. Morgan (1997). The data: a brief description, *Journal of Applied Econometrics*, 12, 651–661. [\[PDF\]](#)
42. Magnus, J.R. and F.J.G.M. Klaassen (1997). Testing some common tennis hypotheses: four years at Wimbledon, in: *Papers from the Third Meeting of the Sports Statistics Committee*, 51st Session of the International Statistical Institute, Istanbul, 9–37. [\[PDF\]](#)
43. Magnus, J.R., F.J.G.M. Klaassen and R. van Gelder (1997). Game, set & match, *Psychologie*, 17, July/August, 60–62. [\[PDF\]](#)

1999

44. Magnus, J.R. (1999). The success of econometrics, *De Economist*, 147, 55–71. [\[PDF\]](#)
45. Magnus, J.R. and F.J.G.M. Klaassen (1999). The effect of new balls in tennis: four years at Wimbledon, *The Statistician (Journal of the Royal Statistical Society, Series D)*, 48, 239–246. [\[PDF\]](#)
46. Magnus, J.R. and F.J.G.M. Klaassen (1999). On the advantage of serving first in a tennis set: four years at Wimbledon, *The Statistician (Journal of the Royal Statistical Society, Series D)*, 48, 247–256. [\[PDF\]](#)
47. Magnus, J.R. and F.J.G.M. Klaassen (1999). The final set in a tennis match: four years at Wimbledon, *Journal of Applied Statistics*, 26, 461–468. [\[PDF\]](#)
48. Banerjee, A.N. and J.R. Magnus (1999). The sensitivity of OLS when the variance matrix is (partially) unknown, *Journal of Econometrics*, 92, 295–323. [\[PDF\]](#)
49. Magnus, J.R. and J. Durbin (1999). Estimation of regression coefficients of interest when other regression coefficients are of no interest, *Econometrica*, 67, 639–643. [\[PDF\]](#)
50. Magnus, J.R. (1999). The traditional pretest estimator, *Theory of Probability and Its Applications*, 44, 293–308 (reprinted from *Teoriya Veroyatnostei i ee Primeneniya*, 44, 401–418). [\[PDF\]](#)
51. Fontein, P.F., G.J. Thijssen, J.R. Magnus and J. Dijk (1999). Optimal taxation for the reduction of nitrogen surplus in Dutch dairy farms, 1975–1989, in: *Modelling Change in Integrated Economic and Environmental Systems* (Eds. S. Mahendrarajah, A.J. Jakeman and M.J. McAleer), John Wiley and Sons: Chichester/New York, Chapter 12, 273–296. [\[PDF\]](#)
