

last updated: November 16, 2018

I recently completed the third printing of my “Introduction to the Theory of Econometrics” and my new book “Statistics” with Karim Abadir and Risto Heijmans came out in October 2018. In addition, I just sent the third edition of my 1988 “Matrix Differential Calculus” (with Heinz Neudecker, now deceased) to Wiley, to come out early 2019 as a book and as an e-book.

I am not sure yet what is next.
